Re: Public Records Request Regarding Use of Cell Site Simulators

Dear Nate:

Enclosed please find the public records related to the case files identified earlier. You also asked about the case numbers. Those are a designation for an event report that is created by a police officer at the time of an incident and remain with that file.

I hope this has been responsive to your request. If you have any further questions, please let me know.

Very Truly Yours,

Timothy J. McCausland
City Attorney
