## About Zeitgeist

2012 was a year of big moments, from global games to historical elections and everything in between. With this site, we've analyzed over one trillion queries to showcase what the world searched for.

### How We Did This

### [About The Site](#)

### [Discover More](#)

### [Find Your Trends](#)

We studied an aggregation of over one trillion searches (or queries) that people typed into Google Search this year. We used data from multiple sources, including [Google Trends](#) and internal data tools. We filtered out spam and repeat queries to build lists that best reflect the spirit of 2012.

### Trending

The "trending" queries are the searches that had the highest amount of traffic over a sustained period in 2012 as compared to 2011.

### Most Searched

The "most searched" queries are the most popular terms for 2012—ranked in order of the queries with the largest volume of searches.

### Privacy & Security

All the searches we studied are anonymous. No personal information was used.
