v.

BALTIMORE POLICE DEPARTMENT, *et al.*,

*Defendants-Appellees.*

---

**On Appeal from the United States District Court  
for the District of Maryland at Baltimore**

---

**DEFENDANTS-APPELLEES' MOTION TO  
DISMISS THE APPEAL AS MOOT**

---

This is an interlocutory appeal challenging only the district court's decision not to preliminarily enjoin the Baltimore Police Department (the "BPD" or the "Department") from carrying out a six-month aerial surveillance pilot program. The program has ended. The surveillance planes have stopped flying. The BPD has terminated the contract with the company that operated the program and has no plans to resume the program. Accordingly, Defendants-Appellees BPD and

Commissioner Michael Harrison respectfully request that the Court dismiss the appeal as moot.

“The doctrine of mootness constitutes a part of the constitutional limits of federal court jurisdiction, which extends only to actual cases or controversies.” *Fleet Feet, Inc. v. NIKE, Inc.*, ---F.3d---, No. 19-2390, 2021 WL 243806, at \*2 (4th Cir. Jan. 26, 2021), *quoting Porter v. Clarke*, 852 F.3d 358, 363 (4th Cir. 2017) (cleaned up). “A case becomes moot, and therefore nonjusticiable, ‘when the issues presented are no longer “live” or the parties lack a legally cognizable interest in the outcome.’” *Fleet Feet, Inc.*, 2021 WL 243806, at \*2, *quoting Pashby v. Delia*, 709 F.3d 307, 316 (4th Cir. 2013) (cleaned up). “If an event occurs during the pendency of an appeal that makes it impossible for a court to grant effective relief to a prevailing party, then the appeal must be dismissed as moot.” *Fleet Feet, Inc.*, 2021 WL 243806, at \*2, *citing Int’l Bhd. of Teamsters v. Airgas, Inc.*, 885 F.3d 230, 235 (4th Cir. 2018).

The termination of the pilot program makes it impossible for this Court to grant effective relief to the Plaintiffs-Appellants, whose motion for a preliminary injunction sought to “pause the implementation of [the] pilot program” and stop it “before it ever [got] off the ground.” *See* Memo. in Supp. of Mot. for Prelim. Inj. 2, 34, *Leaders of a Beautiful Struggle v. Balt. Police Dep’t*, No. 1:20-cv-00929-RDB (D. Md. Apr. 9, 2020), ECF 2-1.

Funded by philanthropists and operated by the private company Persistent Surveillance Systems (“PSS”), the pilot program sought to test whether sequential, low-resolution aerial photographs, taken by planes flying intermittently over Baltimore City, could help police solve the city’s most violent crimes. (J.A. 50). Standing alone, the aerial images could not identify any individuals or vehicles, which appeared only as dots. (J.A. 37, 39–40, 50). But PSS analysts could track the movement of those dots to identify routes of potential suspects and witnesses; by cross-referencing existing ground-based surveillance tools, such as surveillance cameras and license plate readers, analysts could then potentially produce reports on vehicles and people traveling to and from the crime scene, as well as individuals and vehicles who crossed their paths. (J.A. 38, 46, 70, 122). The purpose of the pilot program was to test the technology and measure its effect on officers’ ability to identify criminals, its impact on officers’ ability to apprehend those criminals, public support of the program, and the technology’s potential to deter crime. (J.A. 34, 41, 43).

The Plaintiffs-Appellants sued before the first plane took flight, alleging that the program would violate their rights under the Fourth and First Amendments. In support of their motion for a preliminary injunction, the Plaintiffs-Appellants asserted that “significant harm” would follow if the BPD “[c]omplied video of their daily movements,” Memo. in Supp. of Mot. for Prelim. Inj. 33, and “accesse[d] the

data it collect[ed] to build detailed dossiers about Baltimoreans,” *id.* at 25–26. Thus, Plaintiffs-Appellants sought to preliminarily enjoin the Defendants “from collecting or accessing any images of Baltimoreans through wide-area surveillance.” *Id.* at 35. *See also* Proposed Order Granting Pls’ Mot. for Prelim. Inj. (seeking to enjoin the Defendants and their agents from “collecting images through the program or accessing any stored images created by operation of such a surveillance”).

The Department is no longer collecting or accessing aerial surveillance data to track and identify individuals. The pilot program took flight on May 1, 2020,<sup>1</sup> after the district court denied the motion for preliminary injunction, finding that the Plaintiffs-Appellants had failed to demonstrate that they were entitled to such an extraordinary remedy based on “evidence that is less complete than in a trial on the merits.” (J.A. 135), *quoting Univ. of Texas v. Camenisch*, 451 U.S. 390, 395 (1981). *See also* Tr., Hearing on Mot. for Prelim. Inj. 54, *Leaders of a Beautiful Struggle v. Balt. Police Dep’t*, No. 1:20-cv-00929-RDB (D. Md. Apr. 4, 2020), ECF 38 (district court recognizing that “we’re not trying the entire case here today, we’re dealing with the matter of whether or not there is likelihood of success on the merit to the extent that you get a preliminary injunction immediately”). The

<sup>1</sup> *E.g.*, David Collins, “BPD releases mid-term report on ‘spy plane’, asserts no conclusions on effectiveness,” WBAL-TV 11, Sept. 11, 2020, *available at* <https://www.wbal.com/article/baltimore-police-department-report-spy-plane-surveillance-asserts-no-conclusions-on-effectiveness/33994104>.

program proceeded while the Plaintiffs-Appellants pursued this interlocutory appeal. Six months elapsed, the surveillance planes stopped flying, and a panel majority of this Court affirmed the district court's exercise of discretion in denying preliminary injunctive relief.

Since then, the BPD has ceased the activities that the Plaintiffs-Appellants sought to preliminarily enjoin. The Department has not collected any aerial photographs since surveillance planes stopped flying on October 31, 2020.<sup>2</sup> And the Department has stopped accessing aerial images to track and identify individuals as potential suspects or witnesses.

In their petition for rehearing en banc, Plaintiffs-Appellants asserted that the appeal "presents a live issue" because the BPD "continues to access data acquired through the [pilot] program" and "will continue to work with [its] vendor, independent evaluators and stakeholders to provide additional analysis, briefings, and related activities." Pet. for R'ing En Banc 6. But the Department stopped asking PSS analysts to track movements and potentially identify individuals and vehicles on December 8, 2020. *See* Exhibit A, Directive from BPD Deputy Commissioner of Operations Michael Sullivan to Operations Bureau Commanders

<sup>2</sup> *E.g.*, Emily Opilo, "Baltimore's surveillance plan contract could be terminated by spending board this week," *Balt. Sun*, Feb. 1, 2021 (noting that the last flight was on October 31, 2020), *available at* <https://www.baltimoresun.com/maryland/baltimore-city/bs-md-pol-baltimore-spy-plane-vote-20210201-4mglomkuozhobjgrfhoysz2ddm-story.html>.

(Dec. 4, 2020) (stating that no requests for analysis of aerial imagery would be accepted after December 8, 2020). PSS, doing business as Community Support Program, has since deleted all but 14.2 percent of the aerial imagery, which PSS used to produce investigative reports for police and has retained for the potential use of the State and defense in criminal prosecutions. *See* Exhibit B, Letter from Ross McNutt, President of Community Support Program, to BPD Commissioner Michael Harrison (Feb. 2, 2021), at 1 (explaining that the data is being retained to ensure compliance with the government’s disclosure obligations in criminal prosecutions). The BPD has no intention of accessing the data to track and potentially identify individuals. Indeed, on February 3, 2021, Baltimore City’s spending board formally terminated the BPD’s contract with PSS, whose analysts alone are capable of tracking movements in the data.<sup>3</sup> Thus, the Department is neither collecting aerial surveillance imagery nor accessing that imagery to track and potentially identify individuals.

The cessation of activities that the Plaintiffs-Appellants sought to preliminarily enjoin renders this interlocutory appeal moot. *See, e.g., Friedman’s, Inc. v. Dunlap*, 290 F.3d 191, 197 (4th Cir. 2002) (noting that if “the appellate court can no longer serve the intended harm-preventing function or has no

VII, § 23(b) and *id.* at Art. IV, § 6 (providing that the mayor appoints the city solicitor); *id.* at Art. VII, § 28(b) and *id.* at Art. IV, § 6 (providing that the mayor appoints the director of public works).

<sup>6</sup> Emily Opilo, “Spy plane not likely to fly over Baltimore again, mayor says,” *Balt. Sun*, Dec. 28, 2020 (noting Scott’s “firm” and “decisive” opposition to the surveillance program), available at <https://www.baltimoresun.com/politics/bs-md-pol-brandon-scott-interview-20201228-ti75hqctsfgrbyggpzd2xtgm-story.html>; Emily Opilo and Ben Leonard, “Brandon Scott sworn in as Baltimore mayor, addresses ‘public health emergencies’ of COVID-19 and gun violence,” *Balt. Sun*, Dec. 8, 2020 (noting that Scott began his four-year term on Dec. 8, 2020), available at <https://www.baltimoresun.com/politics/bs-md-pol-brandon-scott-inauguration-20201208-e6plg5omprh33lcpchscxf6g4-story.html>.

rate of solving violent crimes,<sup>7</sup> and Arnold Ventures, the philanthropy that financed the pilot, announced that it has “decided against further investments in the program.”<sup>8</sup>

To summarize, the Department has ended the pilot program that the Plaintiffs-Appellants sought to preliminarily enjoin. The BPD is no longer collecting or accessing aerial surveillance images to track and potentially identify individuals or vehicles. Accordingly, the termination of the pilot program makes it impossible for this Court to grant the relief the Plaintiffs-Appellants sought, and the Court must dismiss this interlocutory appeal as moot.

If the Plaintiffs-Appellants believe that the program as carried out abridged their constitutional rights, litigation of their request for a declaratory judgment is still pending in the district court. *See, e.g.*, 11A Charles Alan Wight & Arthur R. Miller, *Federal Practice & Procedure* § 2962 (3d ed.) (“The decision of both the

---

<sup>7</sup> *See* Andrew R. Morral, et al., “Preliminary Findings from the Aerial Investigations Research Pilot Program (RAND Corp. 2021), at 3–4, *available at* [https://www.rand.org/pubs/research\\_reports/RRA1131-1.html](https://www.rand.org/pubs/research_reports/RRA1131-1.html) (last visited Feb. 2, 2021) (noting that crimes for which PSS analysts provided reports had a higher clearance rate, but cautioning that the higher clearance rate might have resulted from factors other than the use of the pilot program, such as the fact that most of these were daytime crimes, which are generally easier to solve).

<sup>8</sup> Emily Opilo, “Texas philanthropists say they’re backing out of financing surveillance plane technology that flew over Baltimore,” *Balt. Sun*, Jan. 26, 2021, *available at* <https://www.baltimoresun.com/politics/bs-md-pol-baltimore-spy-plane-20210126-on26ewfmyvf2zo2bi6cxfb33au-story.html>. Arnold Ventures also said that it would not fund a proposed aerial surveillance program in St. Louis. *Id.*

trial and appellate court on whether to grant or deny a temporary injunction does not preclude the parties in any way from litigating the merits of the case.”). *See also Bartels ex rel. Bartels v. Saber Healthcare Grp., LCC*, 880 F.3d 668, 682 n.7 (4th Cir. 2018) (noting that any factual findings made by a district court at the preliminary injunction stage are not binding at trial), *citing Camenisch*, 451 U.S. at 395. But the constitutionality of the program as applied is not at issue in this interlocutory appeal, which involves only the district court’s decision not to preliminary enjoin the pilot program before it started. Because the program has since ended, this Court can no longer provide any effective relief with respect to the motion for a preliminary injunction.

Counsel for Plaintiffs-Appellants have indicated that they oppose this motion and intend to file a response. Nonetheless, for the reasons stated above, the BPD and Commissioner Harrison respectfully request that the Court dismiss this interlocutory appeal as moot.

Respectfully submitted,

JAMES L. SHEA  
Acting City Solicitor

**December 4, 2020**

**TO: Operations Bureau Commanders**

**FROM: Deputy Commissioner of Operations**

**RE: Conclusion of Aerial Investigation Research (AIR) Program**

---

I wish to thank all members who participated in the AIR Program, which began on May 1, 2020 and concluded on October 31, 2020. All those investigating homicide, non-fatal shooting, robbery and carjacking incidents need to make their final requests to the AIR Program before December 8, 2020. No requests will be accepted after that date so that the independent contractors will have time to conclude their related surveys. I appreciate everyone's support in this endeavor.

Thank you,

A handwritten signature in blue ink, appearing to read "Michael Sullivan".

Michael Sullivan  
Deputy Commissioner  
Operations Bureau

Community Support  
Program

2 February 2021

Michael S. Harrison, Police Commissioner  
Baltimore Police Department  
Baltimore MD

**Subject: Community Support Program Updated Data Retention Policy and Enhanced Data Deletion**

Community Support Program (CSP) previously had deleted unused data consistent with the Professional Services Agreement (the "Agreement") dated April 1, 2020. Based on the Baltimore Police Department's ("BPD") and CSP's desire to minimize retained data, and in light of the New York University Law School Policing Project report, , CSP has determined to further reduce the amount of retained. CSP has updated our data retention program.

Based on discussions between CSP and BPD , it was agreed CSP would limit retained imagery data to 15 minutes prior the beginning to the first investigation track point for a case and 15 minutes after the last investigative track point in an investigation case for each of the 200 completed investigations. CSP has further deleted imagery data from aircraft camera systems when the data was separated by more than 1,320 ft (1/4 mile) from investigation track points to further limit retained data.

Both BPD and CSP agreed this is the appropriate and minimum amount of retained data that underlies CSP's reports that it provided to BPD for the investigated cases. This retained data allows for additional analysis by prosecution and defense teams should the need arise in specific cases. This data retention reduction effort is intended to allow BPD to meet its commitment to provide and meet appropriate disclosure obligations where cases move toward trial. CSP believes this strikes the appropriate balance between the requirement and desire to support future prosecution and defense team analysis requests and the desire to minimize retained imagery data and to delete unanalyzed and unused imagery.

Following the agreed to change in the CSP Data Retention Policy, CSP developed an automated program to identify newly eligible imagery data for deletion under the new data retention parameters. CSP validated the program and its results through extensive two-person manual review. CSP has executed the deletion of the additional data that was not already been deleted under the previously agreed to policy between Jan 14 and Jan 27, 2021. This effort had resulted in a total retained imagery data of 14.2% of the captured imagery data. This has reduced the total data retained to the minimum that is needed to support the prosecution and the defense teams in the 200 investigated and 50 (to date) closed homicide, nonfatal shootings, armed robberies, and carjackings cases CSP supported. The 200 investigation briefings and other ground-based videos have already been uploaded to BPD's Evidence.com

CSP will maintain the retained imagery data in accordance with the Agreement, our data retention program and data protection policies and consistent with standard IT security protocols. Stored drives will be protected and stored in a top-secret qualified safe with a log of all access. CSP

will maintain these files until told the retention program is no longer needed to support trials, appeals, and other legal actions.

CSP has created and attached a 20-page case-by-case list of the imagery data retained for each case and associated list of the time spans of the data retained from each captured data set. This provides a detailed inventory of all retained imagery data as requested. Included is a list of all captured data for reference.

Community Support Program

3. Attached:

1. Certification of Imagery Deletion
2. Retained Data Listing by Supported Investigation and Retained Data Span
3. Captured Data Listing

**Attachment 1****Certification of Imagery Deletion**

The Community Support Program (Persistent Surveillance Systems, LLC) certifies that the imagery data identified within the enhanced data deletion program has been deleted from all CSP drives and systems and has been rendered unrecoverable.

As of February 2, 2021, there have been no legal request, include subpoenas, civil discovery requests, or a particularized request of any criminal defense counsel for imagery or other data or information from CSP related to the Agreement and the Baltimore program.

Ross T. McNutt  
Director  
Community Support Program

**Attachment 2**

**Retained Data Listing by Case and Retained Span and Original Data List**

## CSP Enhanced Data Retention Mitigation Program

This effort is to reduce the retained data to the minimum required support prosecution and defense efforts and to assist in protecting privacy. This extends the CSP data deletion policy to minimize retained data.

In January 2021, CSP updated its data retention program to save a smaller selection of data. This was done in coordination with BPD Legal department. This is in partial response to the New York findings that they through CSP could delete more data.

CSP analyzed its data and agreed with BPD that 15 minutes prior to and after each investigated case would provide sufficient imagery data to support defense attorneys and public defenders in support of their clients. CSP conducted a review of its data, wrote a special program to identify the first and last track point associated with each supported case. CSP then identified the necessary spans within each data set to ensure retention of this data.

The program was checked by multiple staff for accuracy prior to implementation of the enhanced deletion program. A program was run to segregate the to be deleted files. The results of the separation were confirmed by manual review. The separated files were then deleted and rendered unrecoverable.

### Analysis of Retained data

#### Total Captured Data

Hours of Data	1,916.60	Hours
